## An Introduction to Energy, Energy Conservation, and Energy Codes

A one-day training for design professionals, builders, building owners, and code enforcement personnel.

<b>November 14, 2011</b>	<b>Virginia Housing Center, Glen Allen, VA</b>
<b>December 13, 2011</b>	<b>Eastern VA Area</b>
<b>January 27, 2012</b>	<b>Fairfax County Board Auditorium</b>
<b>February 28, 2012</b>	<b>Richmond Area</b>
<b>April 19, 2012</b>	<b>Roanoke Area</b>

**9 A.M. – 5 P.M.**

This one-day program provides design professionals, builders, building owners, and code enforcement personnel with an overview of energy concepts, energy conservation and an introduction to the 2009 Virginia Energy Conservation Code as well as the relative residential and commercial building codes. Participants will gain knowledge of the concepts of energy and the 2009 Virginia Energy Conservation Code as well as an understanding of Virginia's role in the energy code enforcement process. In addition, the Virginia Weatherization Training Center will provide demonstrations and answer questions regarding energy concepts and conservation. Participants will receive a number of reference materials useful in understanding and applying the energy codes in the design and building process.
